40 Year Valspar Black

40 Year Hawaiian Blue

40 Year Harbor Blue

40 Year Copper Penny

25 Year Galvalume

40 Year Kelly Green

Paint and Metal Specifications:

All 40-year colors are siliconized modified polyesters from Akzo Nobel paint systems, except for Orange and Black, which use Valspar paint systems. All 10-year colors are straight polyester paint systems and will chalk and fade more quickly. Galvalume consists of a zinc and aluminum alloy with an acrylic coating. All sheet metal is rolled from 26-gauge steel substrate at 80,000 PSI.

Warranty Information:

Over time, all colors will exhibit acceptable chalking and fading due to sun exposure. The paint warranty explicitly protects against cracking, peeling, or rusting when used properly. Improper installation or exposure to chemicals or other extreme elements will void the warranty.

DISCLAIMER:

Actual colors may vary from the samples shown, as colors display differently on various computer monitors. Additionally, these colors may not match those of other companies, even if the color names are identical.
